

# CTB QUOTE plus

## New to CTB Quote Plus: Replacement Components by Window and Door Size

Milgard Windows and Doors is excited to roll-out Replacement Components by Window and Door size in CTB+. In addition to a new entry option, we are also expanding available options to include vents, frames, and other window and door replacement components.

### How to Enter a Replacement Component by Window or Door Size:

Select Replacement Components from the Item Drop Down menu:

The screenshot shows the 'Item Selection' interface. On the left, there is a 'Preferences' button and a 'Preferences Type' dropdown set to 'Replacement Component'. The main 'Item:' dropdown menu is open, showing options: 'Window', 'Door', and 'Moving Glass Wall System'. The 'Replacement Component' option is highlighted in blue. To the right, there is a search icon, a 'Description:' field containing 'CONFIGURED WINDOW', and a 'Location/Label:' field. At the bottom right, there is a lock icon labeled 'Portland' and a 'Product Line' link.

Press New Item:

This screenshot shows the 'Item Selection' interface after the 'New Item' button has been pressed. The 'Item:' dropdown now displays 'Replacement Component'. The 'Quantity:' field is set to '1' and 'EA'. Below the 'Item Selection' header, there are four buttons: 'New Item' (highlighted with a red box), 'Library', 'Write-In Dealer Options', and 'Product Catalog'. The 'Description:' field now reads 'Configured Replacement Component'.

Once the item configuration screen opens, you will be presented with the following options:

#### Replacement Component

- Component of a ... \*  Window  Door
- Replacement Component Type \*  Glass Unit  Screen  Panel  Lite Only  Frame Only  Corner Sample  Exterior Trim
- Replacement Data Entry Mode \*  Enter Window/Door Dimensions  Enter Replacement Component Dimensions

In the "Component of a" question, select Window or Door.

For "Replacement Component Type" select what you are ordering from the available choices. In this example I have chosen Glass Unit.

Finally, choose how you want to enter the information:

- Enter Window/Door Dimensions
  - Enter using the dimension of the entire window or door. For example, you can order the fixed glass of a Tuscany RO 48x48 Half Vent using the window size, and CTB+ will calculate the glass size for you.
- Enter Replacement Component Dimensions
  - Order glass, screens, vents, etc. by the actual dimension of the glass, screen, or vent.

**Entering by Window and Door Dimension:**

Once you choose Window and Door dimension, you will be moved to an entry screen that mirrors the current entry for a full Window and Door. Here’s an Example:

Replacement Component
Window

**Base Selections**

---

|                              |          |   |
|------------------------------|----------|---|
| <u>Product Line</u> *        | <i>i</i> | <input style="width: 95%;" type="text" value="Tuscany"/>            |
| <u>Operating Style</u> *     | <i>i</i> | <input style="width: 95%;" type="text" value="Horizontal Sliders"/> |
| <u>Product Material</u> *    |          | Vinyl   |
| <u>Configuration Model</u> * |          | <input style="width: 95%;" type="text" value="Half Vent"/>          |
| <u>Fin Type</u> *            |          | <input setback"="" style="width: 95%;" type="text" value="1 3/8"/>  |
| <u>Handing</u> *             |          | <input style="width: 95%;" type="text" value="XO"/>                 |

**Select Unit to Replace**

---

Units are identified bottom left to top right

Which Unit do you wish to replace \*

Unit 1.2 Right Fixed ▾

**Finishes**

---

|                                 |   |
|---------------------------------|---|
| <u>Exterior Finish</u> *        | <input style="width: 95%;" type="text" value="White"/>    |
| <u>Interior Finish</u> *        | White   |
| <u>Manufacturing Location</u> * | <input style="width: 95%;" type="text" value="Portland"/> |

**Dimensions**

---

|                               |   |
|-------------------------------|---|
| <u>Opening Type</u> *         | <input checked="" type="radio"/> Rough Opening <input type="radio"/> Net Frame <input type="radio"/> Call Out |
| <u>Rough Opening Width</u> *  | <input style="width: 95%;" type="text" value="48"/>   |
| <u>Rough Opening Height</u> * | <input style="width: 95%;" type="text" value="48"/>   |

There are two new questions: Select Unit to Replace and Manufacturing Location.

**Select Unit to Replace:**

Select Unit to Replace

Units are identified bottom left to top right

Which Unit do you wish to replace \*

Unit 1.2 Right Fixed

Unit 1.1 Left Vent

Unit 1.2 Right Fixed

Finishes

Exterior Finish \*

This question allows you to choose which component of a multi-component window to replace. In the above example I want to replace the Right Fixed Glass Unit (the glass in the fixed sash of this Half Vent), so I would choose Right Fixed because I chose Glass Unit on the previous page.

After you have entered your dimensions and answered any other questions in the Window or Door build, you will Continue then Finish as normal. The Right Fixed Glass Unit for a RO 48x48 Tuscany HV will look like this in the Shopping Cart:

**Replacement Component**

Configured Replacement Component

Window Glass Unit, TG, Net Glass: 20 9/16" x 42 5/8", 7/8" OA

Size = Net Frame: 47 1/2" x 47 1/2" ,

Model = Tuscany, 8120T, 1 3/8" Setback, Ext White / Int White, Half Vent - Right Fixed Glass ,

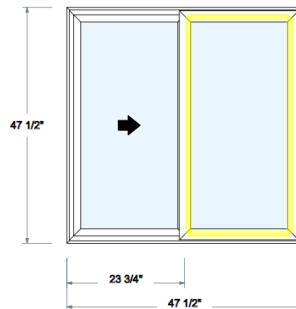

Handing = XO ,

Glass = 1/8" SunCoat (Low-E) over 1/8" Clear with Gray EdgeGard Spacer ,

Glazing = Dual Glaze with Breather Tube ,

Other Options = Glass Breakage Warranty

Along with a picture highlighting the component being ordered:

This line is treated just like a window or door in the Shopping Cart – you can move it up or down in the quote, copy it, edit it, etc.

**Manufacturing Location:**

The other important question is Manufacturing Location. This question will default to the location that builds the product you’re replacing, and there is no need to change the answer for the majority of your replacement component needs. Please reach out to you Inside Sales Representative for more information.

If there are any issues – please report them to [support@milgard.com](mailto:support@milgard.com) for resolution or contact your Outside or Inside Sales Representative.
