Energy Packages

All Milgard windows and patio doors are designed to meet tough thermal and solar requirements of state and local jurisdictions. **Energy Packages** are available in **CTB Quote™ Plus** to provide a simple selection approach to further improve the energy efficiency of windows and doors.

Energy Package Ratings

Zone	U-Factor	SHGC	Features
Energy Star v5(Northern)*	0.3	-	SunCoat [®] +Argon+EdgeGardMAX [®]
Energy Star v6 (North-Central)	0.3	0.4	SunCoat [®] +Argon+EdgeGardMAX [®]
Energy Star v6 (South-Central)	0.3	0.25	SunCoatMAX [®] +Argon+EdgeGardMAX [®]
Energy Star v6 (Southern)	0.4	0.25	SunCoatMAX®
High Efficiency Package	0.27	0.32	SunCoat [®] /i89+Argon+EdgeGardMAX [®]
R5	0.20	0.25	Triple Glaze, SunCoat [®] (surface 2 & 5)+ Krypton+Foam Spacer
Title 24	0.32	0.25	

*Energy Star V6 Northern goes into effect January 1, 2016

The table above identifies the *U*-factors and Solar Heat Gain Coefficients (i.e., SHGC) applicable for each regional package. The **Preferences** section will list regions available.

- Dual and Triple Glazing Energy efficient windows use dual or triple pane glass (or glazing) to better insulate and help reduce energy usage
 - SunCoat[®] and SunCoatMAX[®] Low-E Glass Coatings Low-E means 'low emissivity' and describes glass that has a solar control coating to improve thermal performance.
- Spacers keep a window's dual glass panes the correct distance apart for optimal insulation between panes.
 - EdgeGard® and EdgeGardMAX® Spacers- provide superior insulating properties and helps to reduce condensation.
 - Argon and Krypton Gas-filled Spacers enhances thermal performance without getting in the way of the view.

Add an Energy Package Using Preferences

The steps below depict adding an **Energy Package** to a Window using **Preferences**, but the process can be manually done within the **Item Configurator** from the **Quote > Item > Window> New Item** selection.

1. From the **Quotes** page, under the **Items** tab, select **Window** from the **Item** drop-down list.

СТВ	QUOTE	Milgard WINDOWS & LODORS
Home Quotes 🗸	Orders 💌 Customers 💌 Projects 💌 Dealer Options 💌 Reports 💌 Help Desk Support 👻	Account Information 👻

Item Selection		
Item:	Window 👻 🔍 Description: Configured Window	
Quantity:	1 EA Location/Label:	

 From the Preferences section, select the Product Line. Tuscany is selected for the example. The Product Line will set available field options. //Note that Energy Package is defaulted to None.//

Product Line	🔒 Tuscany	م Fin Typ	e 🔓	Q	Opening Type	6	
Exterior Finish	6	م Interior	Finish 🔒	Q	Energy Package	Cone None	
Exterior Glass	6	Q Interior (Glass 🔒	Q	Ext. Glass Thickness	6	
Int. Glass Thickness	6	Q Gas Fille	ed 🔒	Q	Breather Tube	6	
Grids *	6	Screen I	Mesh G	0			

3. For the **Energy Package** field, use the visual selection (search icon \bigcirc) to select the appropriate **Energy Package** option. //For the example, *Energy Star South-Central* will be selected.//

Product Line	8	Tuscany Q	Fin Type	6	Q	Opening Type	6

New Item 4dd Reset selected options Library Write-In Dealer Options Product Catalog								

The selected Energy Package determines mandatory Energy Package fields to satisfy rating requirements. In the screenshot above, *SunCoatMAX* (Low-E) and *Argon* are required for Energy Star South-Central and cannot be altered. //Note that Interior Glass has defaulted to *Clear*, however, can be altered for this field.//

4. Select any other **Preferences**, as applicable, and then select the **New Item** button to open the **Item Configurator** and complete the build. //See <u>**Preferences**</u> for details.//
